

## Security

Roller shutters present an immediate visible deterrent, protecting your home against Burglary and Vandalism.

## Insulation

Roller Shutters have thermal insulation properties that reduce the effects of summer heat as well as retaining the warmth during the colder winter months.

## Value for Money

The cost of heating and cooling your home is substantially reduced all year round making this product an ideal investment for the future.

(Reduce on energy costs as well as the damaging affect on the Environment)

## Noise & Light

University tests have proven that Roller Shutters have an overall affect in the reduction of noise levels from outside of the home. Light and Ventilation can be adjusted to create a pleasant, softly lit atmosphere.

## Control your Environment

Prevent the sunlight from fading carpets and interior furnishings as well as acting as a long term protection for window frames.

NOW ISO APPROVED

## Bushfires

Extensive testing has been carried out in conjunction with the CSIRO, resulting with an appraisal certificate for the protection against radiant heat from bushfires.

(Technical Assessment 306)

## Privacy

Roller Shutters offer you privacy during both day and night. You control the extent by simply adjusting the shutter to suit your needs.

When fully open the shutter curtain is completely out of sight leaving unrestricted views through your window.

## Operation

Roller shutters can be operated either electrically, manually or with the Ozroll Drive System.

More importantly they are operated from inside your home to further enhance the security and convenience aspect.

## OZRoll Drive System

An affordable motorised control system that is battery operated and therefore not reliant on mains power.

With operation at the touch of a button this unique product offers a competitive alternative to current control options whilst allowing for a simple, clean and cost effective installation.

Also available with solar charging.
